Subject: Microsoft Settlement

I think the government ought to sock them the maximum amount allowable. They have gotten away with computer equivalent of murder and ought to have to pay the piper. How about every user (of MS record) in the world getting a check for \$20 as a one time settlement for the company's monopolistic actions for at least the last five years? They certainly shouldn't be allowed to put a bunch of dirt cheap computers loaded with MS programs into schoolrooms.

Sincerely,
